

Request for Proposals: Creative Marketing Services #2023-03
Addendum 1
Issued August 9, 2022

Clarification:

The advertisement for RFP #2023-03 begins with web development. To clarify, this is a request for proposal from a creative marketing services team. We are looking for a team to help with graphic design and creative marketing for our campaigns, terminal signage, social media, and much more.

Please be advised there may be a time when you are asked to work with the web developer, who will also be contracted, for design purposes.

If you are a creative marketing designer we are interested in hearing from you!
